## B Block

Completed at the end of 1975, B Block housed general classrooms for Art and Business. Over the years, B Block has been home to Humanities, Languages including the French Immersion program, Art, Maths, English and Information Technology. The end wall of B Block at one time included an electronic screen with school notices, but now features quotes from our school leaders.

B Block was initially intended to be expanded by joining it to a future planned building. It is for this reason that one staircase is external. The stairs were temporary to allow for an internal staircase when the adjoining block was completed. The initial temporary staircase has been replaced by a sturdier structure; however, it remains external to the building.

QUALITY LEARNING IN A CARING ENVIRONMENT

"Plant the seeds of change today so that someone can enjoy the shade of a better tomorrow."  
Xavier Curry, School Principal

"Take pride in being afraid, for it is only by fear that you may discover your own strength."  
The Mauleon-Wells, School
